

SIDE VIEW : Aluminium visTA XL⁺ 117.5mm Frame

1. The **visTA XL⁺** flush twin track frame is 117.5mm wide.
2. This frame is designed to allow a flush floor finish to the inside only.
3. The frame sits 40mm back over the cavity to conform to Part "L".
4. The threshold depth is 52mm. The full height of the frame can be buried into the floor to the inside only, to allow a flush floor finish.
5. Fixing strap ACUN230 is available if required at an extra cost.
6. See page 2 for a further illustration.
